Key Insights — the numbers that matter most

 COST STRUCTURE

₹390.9

Average unit cost across all SKUs, with holding cost averaging **20.2%** of unit value per year.

 STOCK CRISIS

189 SKUs

38% of the catalog was completely out of stock as of Jul-26 — the single biggest risk in the network.

 FASTEST SUPPLIER

4.9 days

Dr Reddy's is the fastest supplier, vs. a network average lead time of **6.7 days** — but also the riskiest (18.3% stockout rate).

 EOQ OPPORTUNITY

₹6.5L / yr

Potential savings from switching all SKUs to Economic Order Quantity. Top single item: **Glimepiride 2.5mg Inhaler** (₹7,071/yr).

 REORDER ALERT

143 SKUs

Run stockout rates **above 20%** and need urgent reorder-policy review.

 TOP SPEND

₹35.3Cr

Cardiac drives the highest restock spend. **Aurobindo** leads supplier spend at ₹27.2Cr across 37 SKUs.

 RISK HOTSPOT

17.3%

Dermatological has the highest stockout rate of any category. Respiratory is the safest at 11.0%.

 SAFETY BUFFERS

285,144

Units held network-wide as safety stock. Average reorder point sits at **910 units** per SKU.

 DEMAND TREND

824K units

Demand peaked in **Aug-25**; fulfillment rate fell to its lowest point in **May-26 (82.4%)**.

 Top Recommendations

1. Fix the **189 zero-stock SKUs** first — they represent over a third of the entire catalog.
2. Roll out **EOQ-based ordering** to capture the ₹6.5L/yr savings, starting with top-impact SKUs.
3. Diversify away from single-supplier dependence on **Dr Reddy's** for high-risk categories despite its speed advantage.
4. Prioritize a supply-chain audit for the **Dermatological** category, the weakest performer on stockouts.
